GA · 가

水 · SU · WATER

Hansu is great water, the source that feeds every living thing: soft yet unbreakable, patient, adaptable, never cut. The floor line is 水. You start at its centre, work forward and back along the centre line, then out along each of the four diagonals and back, and every move is meant to gather energy rather than spend it.

READING THE FOOTPRINTS

- **Ap seogi** · walking stance. One natural step, feet almost in line.
- **Ap kubi** · front stance. About 1½ steps long, one fist wide, front knee bent.
- **Dwit kubi** · back stance. Heels in line, rear foot turned out, weight on the bent rear leg.
- **Gyeotdari seogi** · assisting stance. Rear foot close behind the front heel, rear knee bent in behind the front knee.
- **Juchum seogi** · horse stance. Feet wide and parallel, knees bent and pushed out.
- **Hakdari seogi** · crane stance. Stand on the red foot; the other foot rests against the standing knee. Named for the standing leg.
- **Ap chagi** · front kick from the rear leg.

Red foot leads; the blue tick is the direction you face. Front-stance chips are filled. Back-stance chips have a double outline.

PRACTICE NOTES

HOW THE DIAGRAM READS

You start at **na** facing **ga** (the bottom of the page). Figures on the left and right are seen from the side; centre figures face you going toward ga and show their back returning toward na. Horse- and crane-stance figures face the way the body faces.
