— · PO-EUN · THE LOYAL SUBJECT

Po-Eun is the pen name of Jeong Mong-ju (1337–1392), a loyal subject of the late Goryeo kingdom and a famous poet. His poem saying he would not serve a second master, though he die a hundred times, is known to every Korean; he was also a pioneer of physics. The diagram, a single line, stands for his unbending loyalty to king and country at the end of Goryeo. The whole pattern stays on the A–B line, facing D for almost all of it: from a forearm guarding block, a one-leg stance and pressing kick, then a long continuous run in sitting stance (knife-hand strike, angle punch, pressing and side front blocks, wedging block, back elbow thrusts, punch and horizontal punch, with a kihap), X-stance low blocks, a U-shape grasp, a slow twin elbow thrust and a back fist strike behind; then the same again to the other side.

READING THE FOOTPRINTS

Niunja sogi · L-stance. Feet at right angles, about 1½ shoulder widths apart, most of the weight on the bent rear leg. Named by the rear foot: this one, left foot forward, is a right L-stance.

Annun sogi · sitting stance. Feet parallel, about 1½ shoulder widths apart, knees bent and pushed out, weight even.

Kyocha sogi · X-stance. One foot crossed behind the other, resting on its ball; usually after a jump.

Waebal sogi · one-leg stance. Stand on the red leg, the other foot drawn up to the side of its knee joint. Named by the standing leg.

Red foot leads; the blue tick is the direction you face. Walking-stance chips are filled; L-stance chips have a double outline. Directions are the ITF letters: you start facing D, with B on your left and A on your right.

PRACTICE NOTES

HOW THE DIAGRAM READS

You start at the centre facing **D**, the bottom of the page, so **B** (your left) is on the right of the page and **A** on the left. The ITF books draw the same diagram from behind you, with D at the top. Figures on the left and right are seen from the side; centre figures face you going toward D and show their back going toward C.
