DO-SAN · AHN CHANG-HO

Do-San is the pen name of the patriot Ahn Chang-ho (1876–1938), who gave his life to education and Korean independence; the 24 movements stand for his whole life. You start in the middle of the A–B line facing D: high blocks and punches to B and A, a guarding block and fingertip thrust down the stem, a full turn to free the hand and two back fists, blocks and punches to E and F on the far line, wedging blocks, kicks and double punches on the two diagonals back toward C, two rising blocks, and two knife-hand strikes in sitting stance where you began.

READING THE FOOTPRINTS

Gunnun sogi · walking stance. About 1½ shoulder widths long and one wide, front knee bent over the heel, rear leg straight. Named by the front foot.

Niunja sogi · L-stance. Feet at right angles, about 1½ shoulder widths apart, most of the weight on the bent rear leg. Named by the rear foot: this one, left foot forward, is a right L-stance.

Annun sogi · sitting stance. Feet parallel, about 1½ shoulder widths apart, knees bent and pushed out, weight even.

Red foot leads; the blue tick is the direction you face. Walking-stance chips are filled; L-stance chips have a double outline. Directions are the ITF letters: you start facing D, with B on your left and A on your right.

PRACTICE NOTES

HOW THE DIAGRAM READS

You start at the centre facing **D**, the bottom of the page, so **B** (your left) is on the right of the page and **A** on the left. The ITF books draw the same diagram from behind you, with D at the top. Figures on the left and right are seen from the side; centre figures face you going toward D and show their back going toward C.
