— · IL · THE PLAIN

Pyongwon is the wide plain: open ground that feeds every living thing, with no mountain to block it and no river to cut it. The floor line is one straight line, —. You start in the middle and move only sideways along it, never forward or back. Each column on the board is one spot on the line: the first figure stands on the line and the counts made at that spot follow beneath it, in order.

READING THE FOOTPRINTS

- **Ap seogi** · walking stance. One natural step, feet almost in line.
- **Ap kubi** · front stance. About 1½ steps long, one fist wide, front knee bent.
- **Dwit kubi** · back stance. Heels in line, rear foot turned out, weight on the bent rear leg.
- **Juchum seogi** · horse stance. Feet wide and parallel, knees bent and pushed out.
- **Hakdari seogi** · crane stance. Stand on the red foot; the other foot rests against the standing knee. Named for the standing leg.
- **Ap chagi** · front kick from the rear leg.

Red foot leads; the blue tick is the direction you face. Front-stance chips are filled. Back-stance chips have a double outline.

PRACTICE NOTES

HOW THE DIAGRAM READS

You start at **na** facing **ga** (the bottom of the page). Figures on the left and right are seen from the side; centre figures face you going toward ga and show their back returning toward na. Horse- and crane-stance figures face the way the body faces.
