十 · SIP · TEN

Sipjin takes the ten symbols of long life (sun, moon, mountain, water, stone, pine, the herb of youth, tortoise, deer and crane) and the decimal idea of counting on without end. The floor line is 十, a cross. You start where its lines meet: first out along the bar to da and to ra, then up the stem toward na, down past the start toward ga, and back up to finish where you began, always keeping the body on the centre line.

READING THE FOOTPRINTS

- **Ap seogi** · walking stance. One natural step, feet almost in line.
- **Ap kubi** · front stance. About 1½ steps long, one fist wide, front knee bent.
- **Dwit kubi** · back stance. Heels in line, rear foot turned out, weight on the bent rear leg.
- **Beom seogi** · tiger stance. Short, front foot on the ball, weight on the bent rear leg.
- **Juchum seogi** · horse stance. Feet wide and parallel, knees bent and pushed out.
- **Ap chagi** · front kick from the rear leg.

Red foot leads; the blue tick is the direction you face. Front-stance chips are filled. Back-stance chips have a double outline.

PRACTICE NOTES

HOW THE DIAGRAM READS

You start at **na** facing **ga** (the bottom of the page). Figures on the left and right are seen from the side; centre figures face you going toward ga and show their back returning toward na. Horse- and crane-stance figures face the way the body faces.
